## SCPA Chamber Ensemble Festival Overview

### Overview:

- The goal of the Chamber Ensemble Festival is to provide a positive musical and educational experience for solo and small ensembles, which should help foster musical growth both for the individual performers as well as support their school music programs.
- The Festival is open to Brass, Woodwind, Percussion, and any combination of those ensembles. We hope to expand to Strings, Guitar, and other ensembles in the future!
- There is no set music list! Any music is welcome, as long as a score can be provided.
- Due to time constraints, please plan to perform one piece only. Multi movement works are acceptable.
- Ensembles will be allotted 10 minutes, which should include entrance, set up, performance, judge feedback, judge scoring, and exit.
